EXPERIENCE

UBS, Pune— *Software Engineer*

February 2019 - PRESENT

A front end ReactJs Redux web developer, helping the team in developing the new functionalities and maintaining the existing application. I am also into Automation reporting team with Tableau where we try to create insights to Stakeholders from the data.

Wipro, Hyderabad— *Project Engineer*

June 2017 - January 2019

I was a Java and Javascript developer, helping the team in migration of EOL apps of a financial firm to new tech stack and also enabling complete CI/CD pipeline to them with Maven, Teamcity, Git and internal deployment tool.

EDUCATION

INSAID, Remote — *GCD*

November 2019 - Present

Global certification of Datascience, a program to become a Machine Learning and Data scientist training with top-notch data experts from industry.

Gayatri College of Engineering, Visakhapatnam — *B.Tech*

September 2012 - April 2016

I am a graduate in Mechanical Engineering from one of the finest institute in Andhra Pradesh.
